- Registered of fully serviced offices
- FATCA & CRS

OUR TEAM

Our fund services teams combines various backgrounds ranging from legal practice and fund administration to investment banking and investment management. Currently Trustmoore has Fund specialist teams located in our offices in Luxembourg, the Netherlands, Malta, Curaçao and Singapore. These teams are dedicated to servicing the alternative investments industry and interact cross-border.

OUR JURISDICTIONS

Luxembourg

The world leading location to base an Alternative Investment Fund. Centrally located in Europe, Luxembourg has a great array of investment fund solutions to offer. The stable political, economic and social environment make it one of the compelling jurisdictions for institutional investors. Funds generally use one of the following vehicles: SIF, SICAR, SCS/SCSp, Securitization vehicle and the RAIF.

The Netherlands

The stable and strong Dutch economic environment makes the Netherlands a great location to domicile an AIF. Well-known as one of the international business operations hubs, the Netherlands has a beneficial regulatory and tax framework to established broad-based funds and structures. Most Dutch Alternative Investment Funds are structured as a partnership (C.V. or FGR) in combination with a legal entity (B.V., N.V., Foundation).

Curaçao

Curaçao is well-known as one of the foremost locations where many of the early hedge funds used to be domiciled. Currently it is still regarded as a jurisdictions with a highly developed financial services industry. Our Curaçao office is mainly focused on servicing Funds domiciled in the North-Americas. Local funds are generally structured using (tax exempt) BV's and NV's, Limited Partnerships or Trusts.

Malta

A relatively small country located at the southern border of Europe with a prime international business and financial center. Malta is a strategic location with the ideal infrastructure to maintain an Alternative Investment Fund. The most common fund vehicles used in Malta are the Professional Investor Fund (PIF), the Alternative Investment Fund (AIF) and the Notified Alternative Investment Fund (NAIF). In general funds can be set-up as open or closed ended

investment company (SICAV or INVCO), Cell Company, limited partnership, contractual fund or unit trust.

Singapore

The stable economic and political environment make Singapore an ideal location to set-up fund management operations. The country is strategically located to focus on investments in Asia, in particular China, India and Southeast Asia. The most common fund vehicle used in Singapore is the Unit Trust, also referred to as a mutual fund. Money from a large number of investors is pooled together to invest in Alternative assets. Our office has experience in servicing a variety of asset classes
